Lockdown Policy

Purpose

This document is intended to provide lockdown guidance for when an incident occurs that is believed to pose a risk to school premises and/or people within the premises.

Examples of when this procedure could be adopted include: access or attempted access by person(s) with malevolent intent, sudden severe weather conditions, nearby fire or dangerous substance leak, dangerous animals, social unrest outside the school or any other incident that at the time is believed to pose such a threat.

All staff should be familiar with this document and be confident to raise the alarm in the designated manner.

Notification of a threat will be by:

Partial Lockdown threat: (verbal communication, computer screens and radio)

Full lockdown threat: (verbal communication, computer screens and radio)

Aim:

To ensure the continued safety of all students, staff and visitors to the school whilst minimising disruption to the learning environment, if an incident occurs within the school, school grounds or local vicinity.

Lockdown Arrangements:

Our lockdown procedure is based on the school's buildings design and layout, class arrangements and resources currently available.

Partial lockdown:

'Partial Lockdown' is a school's response to a threat outside the school grounds where there is no immediate threat to the students or staff inside the school. During a Partial Lockdown the building perimeter should be secured with staff stationed at the doors and all students, staff and visitors accounted for and secure. Where possible normal school activities should continue.

If appropriate afterwards they should then head to their next lesson at normal time without going outside.

It is very important when using any lockdown procedure that your actions do not cause staff or students to panic

Panic spreads - Stay calm

Lockdown drills:

- Lock down procedures should be practiced at least once a year to ensure everyone knows exactly what to do.
- Lockdown drills should be debriefed in order to build on areas that went well and to identify areas for improvements.
